

The Red Tent

The Red Tent

Red Tent Movement is a worldwide grassroots movement creating woman honoring culture, envisioned and birthed by ALisa Starkweather at the New England WHC 10 years ago. Red Tents are spreading rapidly all over the world with the help of Dr. Isadora Leidenfrost's documentary, "Things We Don't Talk About; Healing Stories from the Red Tent". "

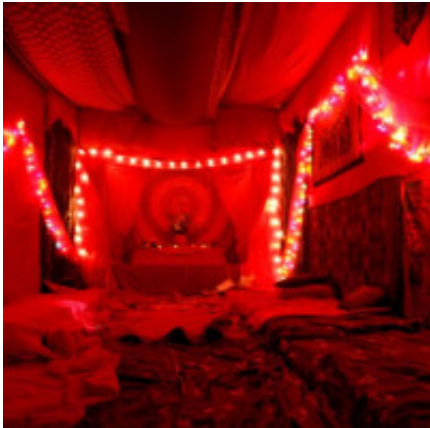

This sacred space offers an opportunity to slow down and check in with your precious self, or connect with other sisters in respectful and compassionate exchange. Come in any time during the conference to rest, journal, share bodywork, herbal counsel, or healing, to sing, pray, dance, draw, meditate, restore.

The Yellow Springs Red Tent sisters will be priestessing the RTT all weekend and a schedule of Red Tent activities will be posted.

The 30th Annual New England Women's Herbal Conference

Honoring the Wisdom of Our Ancestors & The Voices of Tomorrow
